

**Bettina Kaiser art + design is the studio of Bettina Kaiser, graphic and web designer and visual artist.**

A professional designer for over 15 years, Bettina, together with her team, creates designs that unite powerful visuals with effective technical solutions.

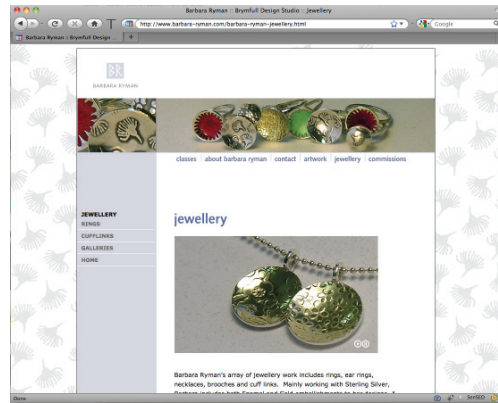

Contact us if your business needs:

- + a unique and strong design for your business or web presence
- + a search engine friendly website that is developed to current web standards
- + flexible solutions including the option of a content management system
- + clear and user friendly interfaces for easy navigation

recent projects large and small include

**dynamic websites for large organisations like the Nature Conservation Trust of NSW**  
[www.nct.org.au](http://www.nct.org.au)

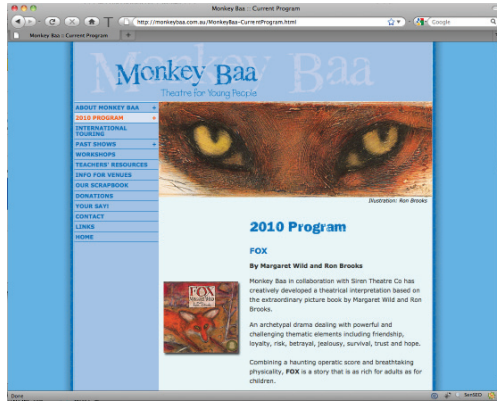

**beautiful websites for talented artists, teachers and craftspeople like Barbara Ryman**  
[www.barbara-ryman.com](http://www.barbara-ryman.com)

**editable websites for delicious local small businesses like The Red Kitchen**  
[www.theredkitchen.com.au](http://www.theredkitchen.com.au)

interactive websites for government programs and local networks like Sustainable Illawarra  
[www.sustainableillawarra.com.au](http://www.sustainableillawarra.com.au)

quirky websites for cultural icons like Monkey Baa Theatre for Young People  
[www.monkeybaa.com.au](http://www.monkeybaa.com.au)

Apart from websites and interactive online marketing we also design logos, create corporate identities and develop printed marketing and information materials.

We don't need no fancy schmancy office or fast talking account manager. Armed with nothing but new technology, high-speed internet connections and our brains, our small business keeps things simple. This reduces overheads keeping your costs low. It also enables us to operate as a sustainable, ethical business.

Our long term pro bono work includes organisations such as the Flametree Community Co-op, and the Hilfe für Afrika street children charity.
